## BARCELONA

Efficient work and easiness of communication between the employees, along with the good technical equipment of the office are compulsory conditions for the success of both big and small companies in the modern world. That is why creating a comfortable work setting is the top-priority objective for top management. It is essential to stick to the corporate style and emphasize the prestige of the company

The new BARCELONA collection is still focused on the main values of SelectOffice brand. Original design, beauty of expensive materials and colour combinations, functionality and comfort, and great value for money are the main advantages of our furniture.

## BARCELONA

BARCELONA desks are perfect for arrangement of the office working zone of any size and configuration. The collection offers two options of desks that can be assembled either right or left-sided at your desire.

Desks with a drawer unit are perfect for administrative officers. Convenient gray matte drawer unit give extra solidity to the light construction of the desk, while the combination of walnut veneer and deep gray contribute more distinctiveness and chic.

The best choice for the managers engaged in negotiations is a desk with a small briefing table attached. Light and flexible, the module expands the working area, making the dialogue between client and manager easy and efficient.

The desk makes a perfect combination with the original boss chairs with tall backs.

BARCELONA

The desk design presented in the collection deserves special attention. The opposition of horizontal and vertical lines in its strict geometrical shapes, the harmonic combination of colour and material texture, meticulously designed functionality make this desk a real masterpiece.

The original texture and auburn tone of the walnut veneer create the exquisite elegance of BARCELONA furniture. Elegant, high-functional furniture, created under the latest design tendencies, will impress your clients and become indispensable in your work.

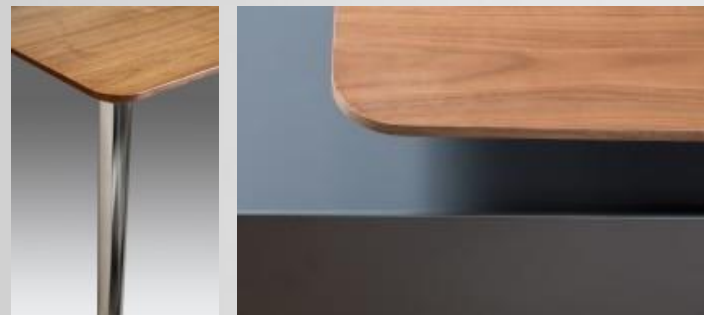

A modern office is unthinkable without capacious and gorgeous closets and bureaus. For BARCELONA collection we designed several options of these essential items. They make a harmonic contribution into the furniture composition of your office.

The desks and credenzas, cabinets and lounge furniture of BARCELONA collection make up the unique style of your office. The combination of beauty and mobility of the furniture ensemble enable you to modify the briefing zones and working places of the personnel due to the present business needs.

BARCELONA

Made in blond colours, the second BARCELONA collection brings lightness and elegance to your office, making your work, negotiations, and rest pleasant and joyful.

The combination of white colouring with the subtle walnut tone used in the credenzas, closets, and desks make this ensemble especially exquisite. Made in the same tones of colour, the lounge furniture completes the office composition, designed with love and respect to the workers and the company as a whole.
