## VIENNA

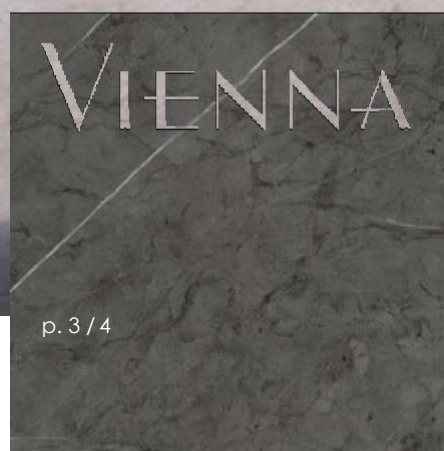

### AGED STONE

A modern office interior is unthinkable without new technologies and materials. Metal and glass, fresh constructive solutions, unusual combinations of colour and texture are the distinctive features of the new furniture aesthetics. VIENNA collection is created with regard to the leading tendencies of the world design, becoming a real discovery for your office's design.

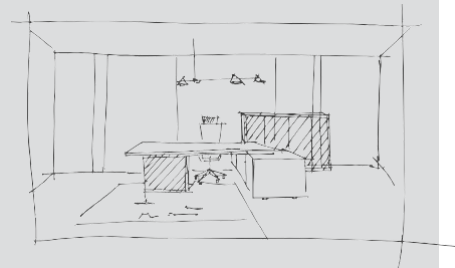

Appropriate arrangement of the office space is more than a comfort issue for any company: it is an opportunity to create the corporate image. The image of a modern, mobile, ultimately efficient company is easily created with VIENNA office furniture collection.

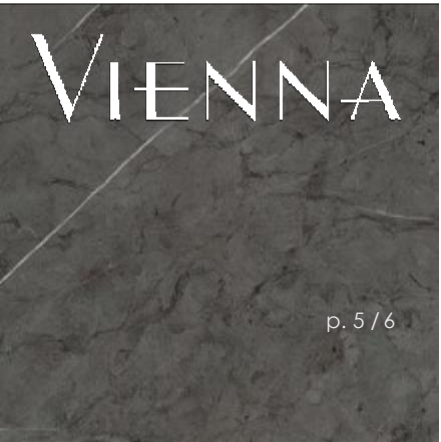

The collection design is remarkable for the combination of the american veneer with white glossy finish.

Rich composition, module format of the desks and cabinets, comfortable and compact lounge furniture are the advantages of the collection that allow you to create an individual customized office space.
