

Focus Quiet Room

A symbol for concentration¹

—
Focus Quiet Room is an expertly engineered soundproof booth that provides a quiet refuge; a place of grounding where employees can concentrate without interruption.

schiaavello

The Knowledge collection

Schiavello's Knowledge collection is comprised of cutting-edge products that are based on extensive research conducted by our Schiavello Design Studio and People and Culture Consulting teams. Led by strategic research into how businesses and employees function, these products help achieve goals and solve problems within the workspace furniture industry.

SCHIAVELLO DESIGN STUDIO

Led by Design and Marketing Director Anton Schiavello, the Schiavello Design Studio is made up of a number of multi-disciplinary designers and makers with expertise in industrial design, fashion design, engineering and medical design. With varying strengths and specialties, the team collectively shares experiences from in and around the furniture industry and brings its expertise to newly developed Schiavello products.

Maintaining thoughtful, innovative and research-driven outlooks on design trends, the Schiavello Design Studio has been the driving force behind a number of the company's most successful designs. Some of the team's most notable concepts include Krossi in 2013 – the first and only Australian made and designed sit/stand desk – and the pioneering Climate workplace system in 2010, which is still one of the most malleable products of its kind. In addition, the studio continues to develop Schiavello's furniture offering, catering to changing typology trends, business and people needs and technology requirements, while maintaining product quality, longevity, effortless visual appeal and environmental sustainability.

Introducing Focus Quiet Room

A place of grounding

Focus Quiet Room is an intricately crafted soundproof booth developed through years of experience and research. Combining the finest of materials, expert craftsmanship and the meticulous consideration of soundproofing, Focus Quiet Room creates a place of uninterrupted focus and privacy within offices.

Leading acoustic performance

With an insulated ceiling and walls, paired with sound absorbing, high performance acoustic seals, Focus Quiet Room aims for an exemplary acoustic rating of Rw37. In addition, thick, 10.38mm laminated glass and an automatic drop seal at the base of the door ensure there is no opportunity for sound to intrude or escape. This considered engineering results in a room where employees can go to focus and get things done.

Improve productivity

Distracting and intrusive noise can lead to poor concentration and, as a result, is a costly problem for businesses today. Research suggests that office workers lose over an hour per day due to uncontrolled interruptions. Focus Quiet Rooms create a place of solace from the bustling surrounding environment – a place where concentration can occur without distraction.

Insulated ceiling and walls, paired with sound-absorbing lining.

Thick, 10.38mm laminated glass allows the booth to retain a transparent wall or door that is as strong, dense and soundproof as possible.

Completely customisable interior and exterior finishes. Select from the ColourLab range.

Focus your way

Create a bespoke Focus Quiet Room that will work seamlessly with your interior palette. Each room comes completely customisable with a wide range of fabric and leather upholstery options as well as hard finishes such as laminate or veneer, via Schiavello's ColourLab palette.

As with any Schiavello product, the customisation options of Focus Quiet Room are endless. Create the booth you want with a wide range of shapes, additions and functions. The units are even able to be reconfigured after years of use.

From a phone booth to a meeting room

Focus Quiet Rooms are available in three sizes to create the right place for an array of tasks or needs. The smallest room, the Phone Booth, is designed to fit a work shelf and stool to create a space for private calls. Within the mid-size unit, the Work Room, a generously proportioned armchair and a side table can be accommodated, or alternatively a desk chair and 1200mm (47.2") wide workpoint, for solo, focused work. Meanwhile, in the Meeting Room – the most generous of Focus Quiet Rooms – a combination of furniture can be used, including a sofa and executive desk for a private office, or a table with chairs to create a confidential meeting room.

Meeting Room

Phone Booth

Work Room

Accessible for all

Best practice in accessibility has informed the Focus Quiet Room's generous proportions. Not relying on a raised floor, the pod design is completely flexible, meaning that alterations to standard configurations are easily accommodated, allowing specific dimensional requirements for all accessibility needs to be met.

Complete comfort

Focus Quiet Rooms come with integrated, motion-sensor lighting services in the ceiling, with the ability to be customised to the walls or to add additional lighting fixtures.

Integrated and concealed motion-sensor fans in the ceiling circulate air flow and maintain the space's comfortable temperature. Quiet and seamless, the fan creates air movement while allowing phone conversations or meetings to remain completely undisturbed.

A true companion to the modern workspace

Focus Quiet Room is able to come integrated with a range of customisable technology functions, including power, HDMI, USB and mounting for screens. They can also be customised with shelves, workstations and accessories such as whiteboards and pinboards.

ColourLab

ColourLab

Schiavello's innovative ColourLab brings a considered and cohesive palette of finishes to working and living spaces. Curated by Giulio Ridolfo and developed by Schiavello, the palette beautifully balances colour, texture and layering across a variety of materials.

Ecology and sustainability

Schiavello's most important commitment to sustainability is the company-wide Environmental Management System under ISO 14001. The environmental design principles realised mean we design for the environment, focusing on efficient energy use and minimum emissions, longevity and durability, re-use and recycling of our products.

Our principles of ME WE (Materials, Energy, Waste Emissions) give us a simple way to think about how our operations impact the environment.

Printed on an Australian made paper stock that is PEFC Certified and made from elemental chlorine-free bleached pulp sourced from sustainably managed forests and non-controversial sources. It is manufactured by an ISO 14001 certified mill using renewable energy sources.

About Schiavello

Schiavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces.

Schiavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of local and international designers.

The Schiavello head office and world-class manufacturing facilities are integral to our continually developing rich tapestry of knowledge. This knowledge ultimately assists us in informing the right solutions and tools for each organisation's needs and people, allowing us to consistently achieve our philosophy that 'Anything is possible'.
