Display bracket

顯示器托臂

An impromptu "get together" enclave space sets the tone for an active collaborative work environment

Four clustered tables provide ample space for team work, with the flexibility to change as needs evolve

Bank of low storage supports both individual and group resources, with the added benefit of secondary seating

Individual workstations can be reconfigured as needs change, supporting those working closely together until a project is complete

For groups that interact frequently, position desks toward coworkers for improved sight lines that help facilitate collaboration

Fence spine delineates team spaces, while channeling power and data

Need focus and privacy in the open plan? Screens do triple duty—providing privacy, defining space and adding vertical workspace to tack and display
