NEW

BARCELONA

Efficient work and easiness of communication between the employees, along with the good technical equipment of the office are compulsory conditions for the success of both big and small companies in the modern world. That's why creating a comfortable work setting is the top-priority objective for top management. It is essential to stick to the corporate style and emphasize the prestige of the company.

The new BARCELONA collection is still focused on the main values of the **SummitTime** brand. Original design, beauty of expensive materials and colour combinations, functionality and comfort, and great value for money are the main advantages of our furniture.

BARCELONA

BARCELONA conference tables are perfect for arrangement of the office working zone of any size and configuration. Convenient gray matte base give extra solidity to the light construction of the table, while the combination of walnut veneer and chromium-plated legs contribute more distinctiveness and chic.
