

Hushed Pod

Small private space solution

Hushed Pod is a little world. It allows you to chat with clients freely without worrying about leaks and noisy environment.

The POD showcases sleek curves and contemporary arches that bring modern sophistication to any work space. It is designed to fit seamlessly yet add an air of calm and serenity to even the busiest of work environments. Minimalist design complement elegant furnishings to create the ultimate work space that is ergonomic, convenient, and conducive. Effective air-circulation and comfortable seating allows for uninterrupted work experience. Meanwhile, its screens provide excellent attenuation for a perfectly silent and isolated work environment.

PRIVACY ANYTIME, ANYWHERE

The acoustic POD was born to address two core issues relating to open plan environments: firstly, the need for physical and acoustic privacy, and secondly, the need for internal rooms.

DESIGNED TO FIT

Made to be portable and flexible in various sizes, the POD is ideal for a range of different uses.

OPEN-PLAN OFFICE

These offices face the problem of excessive, distracting noise caused by loud conversations, keyboard typing, telephone rings, loud footsteps, operating office equipment and more. An isolated space is essential for discussions, calls, and small meetings.

RECEPTION HALL

A reception hall is usually filled with people walking in and out. This high traffic and layout create an environment that traps noise, making it an unwelcoming experience. The POD is crucial in providing comfort and privacy for both visitors and employees.

BREAK-OUT AREA & CAFETERIA

The company break-out areas and canteen are prone to noise and reverberation. Under these circumstances, the POD is a perfect space for a much needed moment of rest and rejuvenation.

RETRACTABLE AND PORTABLE
It is designed to be easily dismantled, moved, and reinstalled. This allows flexibility in any workspace.

ADVANTAGE

Six main advantages

1

Modular

High modular panels make whole assemble easy and fast. It also benefits for packing and transportation.

2

Comfortable

Eco-friendly materials are used to create a comfortable space with air ventilation, good soundproof and basic devices.

3

Customizable

Based on standard structure, customization is available as per demands. Such as size, color and typical functions.

4

Healthy & Hygiene

Salience ventilation fans make whole space with fresh air. The air coming from top to bottom creates positive pressure which is most comfortable for people. UVC radiation is a known disinfectant for air.

5

IOT(Wireless Access)

Wireless Access Control and active sensor control usage, record and energy saving.

6

Mobility

Pod with wheels is moved to anywhere. That's saving a lot of time and manpower.

Modular

Fast & Easy installation

6 pcs +  + **0.5 hr**

MODULAR PANELS 2 PERSON ASSEMBLY ASSEMBLY TIME

Flexible switch

  

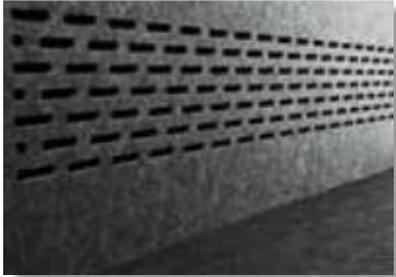

2 PERSON CUBE 4 PERSON CUBE

Convenient storage

Make storage in modular panels. Pick panels to assemble different space as per needs.

Features

LED sensor light.
No need to find and
push light button.

Features

1 Outside

Combination of Metal Frame Cover make reduce noise inside and more solid. There are a few color or coating to be selected.

2 Inside

Acoustic Upholstery in wall and ceiling to reduce sound effectively. Number of color for acoustic is available.

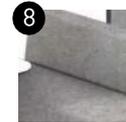

3 Cloth Hanger

It can hang the cloth or bag.

7 Table

Table or Coffee table are available

8 Seating

Bar chair, sofa, & chairs are available for different setting.

Ventilator

Intelligently ventilated fan provides Customize a customized air control system to provide the best choice "comfortable and sexy."

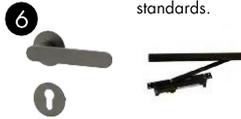

LED with Sensor

The compartments follow GSA's office space recommendations. Continuous air circulation keeps you fresh air

5 Multi-function Socket

All electrical components comply with CE and UL standards. Standard socket and USB Socket for charging equipment. Optional: CN, UK, USA, Universal and other national standards.

6 Door Accessories

Safety glass door designed in Germany. Hide the outside of the frame and graphite texture. When people enter and exit the compartment, the door will automatically close

9 Height Adjustable

Flat Guild height adjustable can balance the Pod even the flooring not even

Wheels

It can be moved around the office.

Customizable

Dimension

Size can be adjusted as per function need or floor height limitation.

Material

Various surfaces are available for example fabric, leather. Panels can be changed from glass to solid one.

Color

Color can be customized as per color chart.

Hardware

Typical hardware can be changed as per demands, for example magnetic lock, door closer, etc.

SERVICE

Standard

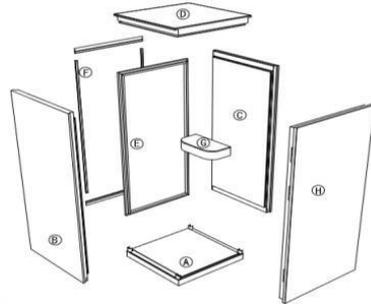

Guidance

Installation video and instruction are all available. Engineer offer full assistance all the time.

Customizable

Professional designers customize Hi-cube as per design and your company culture.

Quality

Well-developed QC system support whole process. 2 year guarantee.

Customization

1 Analyze demands

Products function, usage, and budgets.

2 Designing

Designer turn your vision to reality.

3 Prototype

Produce prototype and test.

4 Production

After prototype confirmed, production will be start with QC.

5 Transportation

Pods will be well-packed as per requirement and shipped out with containers.
