# **Hushed Pod**

HIQ SELECT

# Small private space solution

Hushed Pod is a little world. It allows you to chat with clients freely without worrying about leaks and noisy environment.

The POD showcases sleek curves and contemporary arches that bring modern sophistication to any work space. It is designed to fit seamlessly yet add an air of calm and serenity to even the busiest of work environments. Minimalist design complement elegant furnishings to create the ultimate work space that is ergonomic, convenient, and conducive. Effective aircirculation and comfortable seating allows for uninterrupted work experience. Meanwhile, its screens provide excellent attenuation for a perfectly silent and isolated work environment.

## \_\_PRIVACY ANYTIME, ANYWHERE

The acoustic POD was born to address two core issues relating to open plan environments: firstly, the need for physical and acoustic privacy, and secondly, the need for internal rooms.

#### **DESIGNED TO FIT**

Made to be portable and flexible in various sizes, the POD is ideal for a range of different uses.

#### OPEN-PLAN OFFICE

These offices face the problem of excessive, distracting noise caused by loud conversations, keyboard typing, telephone rings, loud footsteps, operating office equipment and more. An isolated space is essential for discussions, calls, and small meetings.

#### RECEPTION HALL

A reception hall is usually filled with people walking in and out. This high traffic and layout create an environment that traps noise, making it an unwelcoming experience. The POD is crucial in providing comfort and privacy for both visitors and employees.

#### BREAK-OUT AREA & CAFETERIA

The company break-out areas and canteen are prone to noise and reverberation. Under these circumstances, the POD is a perfect space for a much needed moment of rest and rejuvenation.

# PART O 3

# ADVANTAGE

# Three main advantages

## Modular

High modular panels make whole assemble easy and fast. It also benefits for packing and transportation. Comfortable

Eco-friendly materials are used to create a comfortable space with air ventilation, good soundproof and basic devices.

2

### **Customizable**

Based on standard structure, customization is available as per demands. Such as size, color and typical functions.

# Modular

## **Fast & Easy installation**

### Flexible switch

## **Convient storage**

Make storage in modular panels. Pick panels to assmeble different space as per needs.

# **Comfortable**

- Acoustic panel
- Steel panel
- Honeycomb paper

  Rock wool
  - NOCK WOO!
  - Steel structure
  - Steel panel with plaster board

## **Features**

LED sensor light. No need to find and push light button.

UVC radiation is a known disinfectant for air.

UVC radiation has effectively been used for decades to reduce infection (Option)

Mute ventilation fans make whole space with fresh air. The air coming from top to bottom creates positive pressure which is most comforable for people.

Charge station with Power Socket, USB Plugin as well as data & voice connection

Wireless Access Control.(Option)

# **Features**
