### DuPont™ Sorona® Fiber

#### DuPont™ Sorona® Fiber Advantages :

- Permanent lifetime stain protection builds into the core of the fiber.
- No dye site for spills to adhere. Ensure carpet is easily cleaned.
- Excellent compression and tension recovery. Improving carpet performance.

● DuPont™ Sorona® Fiber

### ECOTEC® Recycled Carpet Tile Backing

1. PET beverage bottles

2. regenerated into fiber

3. multi layer bonded into felt backing

#### Advantages :

- Eco friendly. 100% recyclable.
- Cushioning effect absorbs foot impact and enhances carpet durability.
- Superior sound absorbency results in quieter environment.
- Soft cushion effect enhances walking comfort and reduces leg fatigue.
- Clean indoor air quality.
- Superior dimensional stability.
- PVC Free, bitumen free.

● ECOTEC® Recycled carpet backing

**Product specifications :**

Construction	Textured tufted loop pile
Face Fiber	100% DuPont™ Sorona® Fiber
Dyed Method	Dye Infusion
Total Thickness	10 mm
Total Density	165,000 /m <sup>2</sup>
Primary Backing	100 % non woven synthetic
Tile Size	60 cm x 60 cm
Wear Classification	Extra Heavy Duty

**Advantages :**

Lifetime Stain Resistant

Exceptional Durability

Anti-Microbial

Ecotec Cushion Backing

Sound Absorbency

Permanent lifetime stain resistant is built into the core of the fiber. Just clean stubborn stains such as coffee or wine with cold water, reducing cost and time.

Exceptional durability. Sorona biopolymer molecular spring like structure, coupled with Ecotec cushion backing, allowing the fiber to bounce back into original shape after being compressed.

Sorona dries faster and absorbs 16 times less moisture than nylon. Resulting in excellent anti-microbial, anti-mold and fungi properties where the environment for bacteria to breed is exceptionally reduced.

Ecotec cushion felt backing recycled from PET bottles offers superior walking comfort, and extends the life of the carpet by absorbing foot impact.

Ecotec cushion felt backing offers excellent sound absorbency, creating a better working and living environment.

Specifications are based on average normal manufacturing tolerances, variations do not effect product performance.

As with all quality carpets , slight variations in color may occur from dye lot to dye lot.

Protective chair pads are recommended under office chairs with roller castors to preserve appearance retention and to avoid excessive wear.

For end of life disposal, please refer to your country's disposal regulation.
